

South Sioux City Cardinals Golf

Player Expectations:

SSC golfers will be successful in the classroom. The coach will be frequently checking progress in the classroom, school handbook rules for athletes will be followed.

Communication is very important to the success of this team. **I encourage players to talk with the coach with concerns and questions throughout the season. We will communicate through the REMIND app.**

Players will respect the golf course. We are guests on each golf course we play. Players will be warned if they are not treating the course correctly. If the problem persists, they will be asked to leave practice or meet. If the problem continues into more practices, the player will be dismissed from the team.

School Attendance:

Player **must** be in school all day to practice or play in meets unless given permission by a school administrator.

If a golfer misses a practice that is unexcused the day before a meet, the golfer is not allowed to participate in the meet.

A total of five unexcused absences from practices or meets will result in the player no longer being part of the team.

SSC Golf Lettering Policy:

In order to be awarded a varsity golf letter, a golfer must be in good academic standing throughout the season, attend practices and meets, and meet one of the following criteria:

1. Has played in 3 varsity meets during the season (can include conference championship & district meet or meets), or had her score count in 1 varsity meet.
2. Is a senior and has participated in the SSC golf program for at least two seasons.
3. By coaches discretion for a significant contribution to the team.

How Varsity Golfers are selected:

Varsity golfers will be selected by an average of each round played throughout the year. Each round will be recorded during the season and averaged to determine the top 5 golfers for each meet. This guarantees that the 5 golfers with the best averages will be golfing in the varsity meets and gives all golfers a fair chance to participate in varsity competition.
