**IT/Cube info:** Lance Swanson

Lance gave a great presentation about how to use the Cube from your smart phone or your computer or Ipad

Games are" live" by using this Cube- our school uses an I pad on a tripod to video and stream live- so for example if you can't make a game you can still watch it live or even after the game is over you can watch the game and even pick some favorite clips from the game and save them.

Go to SSCCardinals website over to the right click Video- this is how you get to the CUBE

If you have a smart phone down load the APP thru your playstore

This is the 3<sup>rd</sup> year for the Cube and has been a great Asset

**Next Meeting:** Sunday December 4 , 630pm Social, 7 pm meeting at Mi Familia
