

SCHOOL RULES

We believe that children need to learn and grow in a safe, just and cooperative environment. We believe that living within society's behavioral framework is an important life experience, which will influence development toward becoming responsible citizens. Children must learn to take responsibility for their actions, and parents in our school are important co-teachers of this. To assist children's development, the South Sioux City Community Schools expect each child to:

1. Be on time; be prepared.
2. Respect yourself, others and school property.
3. Do your work on time and be on task.
4. Follow directions.
5. Be cooperative.

Each class your child has will get a + or – on each one of the school rules.
